Quality of Outline	Outline is correct, clear, and mostly complete. Any notes are clear and intelligible.	Outline is mostly correct, clear, and mostly complete. Some notes are vague or irrelevant.	Outline is missing substantial parts.	No outline is given.	
Comments (e.g. Give an example of what could be improved. How can the outline be improved?, etc.)		I think there should be a little more in your outline about what analytic techniques you plan on using, regression analysis, what are the variables in your data, etc.			2
Intellectual Merit	The research outlined looks interesting, creative, and/or substantial.	The research outlined is interesting, creative, and/or substantial, but does not seem feasible to do in a semester.	The research outlined lacks substantial complexity.	No outline is given or the outline is too vague to determine if the research has merit.	
Comments (e.g. Give an example of what could be improved. If the project is too complex, what parts of the project could feasibly done? If the project is too simple, what features could be added?)	I think this data has a lot of potential and it is a topic that will be engaging as well as difficult to analyze. You have a lot of spreadsheets with unique data so I think there is great				3

	potential with this project.			
Video	The video gives a helpful, clear depiction of the project.	The video gives a helpful, clear depiction of the project, but is confusing or vague in parts.	The video does not give a helpful, clear depiction of the project.	The video is missing or is inappropriate.
Comments (e.g. Give constructive feed back to help improve the presentation style.)	I think this video ties everything together quite nice. It was good to see your code in the video, but it might also be beneficial to add that code into your repository on GitHub. Great idea for a project, should be interesting to see how it turns out.		3
